

Ludgershall Sports Football Club currently has a men's side and an U16 side. Next year our U16s will become Ludgershall Development and compete in the Wiltshire division 1 whilst our First Team will compete in the Wiltshire prem. This is why we would like to start an U15s side as the next progression to our men's side will be them.

As well as our full size pitch, which our U15s will use next season if this application is successful, we have 3 changing rooms (Home, Away and Referee) as well as a toilet and baby changing facilities and a tea hut for parents/spectators on match day and a full clubhouse for those who wish to stay after the games.

We have 21 players ready to go next season in the U15s team and a manager as well as coaching staff along side him. We feel our team will compete highly in your Premier Division as there are a lot of very talented players, however we do understand this is entirely your decision.
